

Quality Policy

Helm Asia's management declares quality policy as a core element of its corporate governance.

As a company in the chemical supply chain, responsible handling of products is our natural obligation towards our partners and the community. To strive for quality is fundamental for our activities as we constantly aim to increase the satisfaction of our stakeholders.

With the expertise of our talented and motivated staff, we strive for simple and basic processes to ensure the utmost possible room for action and decision.

The management of Helm Asia is committed to meet all applicable requirements and for continually improving our Quality Management System, Processes and Services.

Quality Objectives

Helm Asia's management will develop suitable quality objectives in line with our quality policy based on the following principles:

- We know what we buy.
- We know what our business partners require.
- We offer our business partners, what they expect us to deliver and achieve their satisfaction.
- When it comes to deviations, we clarify the causes and ensure that these deviations will not occur again.
